

From Bombay to Mumbai

This learning reminiscence discussion with six senior citizens from Eudora, Missouri, explores a different travel destination each month with things to learn, questions to answer, and a whole lot of fun along the way. This month they are traveling to Mumbai, India, to immerse themselves in the Indian culture.

Click on the image and print everything you need, including the complete discussion activity, a large print handout, and a sign.

New: Download our [slide presentation](#) and show it on your wide screen TV.

My Passport

Make a personal passport and use it to record your armchair travels every month.

Print the [directions for making a passport](#), the printable pages, and suggestions for completing your passport.

In addition, each time you take a trip with our favorite armchair travelers, Nell and Truman McGiver and friends, "stamp" your passport by gluing on one of the [stamps provided with the monthly program](#). Then add the date of your "trip," the destination, and what you enjoyed most.

When your passport is full, make a new one.
