

## Stand-Up Peacock

### Directions:

1. Print copies of the [peacock body and tail feathers](#) on heavy paper.
2. Color the pieces with colored pencils or markers. Use [this example](#) for inspiration.
3. Fold the tail feathers in half along the dashed line and glue the front and back panels together. Then cut along the outside edge of the tail feathers.
4. Cut out the body and fold the end tabs along the dashed lines.
5. Glue the folded tabs of the body piece. Attach the tabs to the tail feathers as shown below.

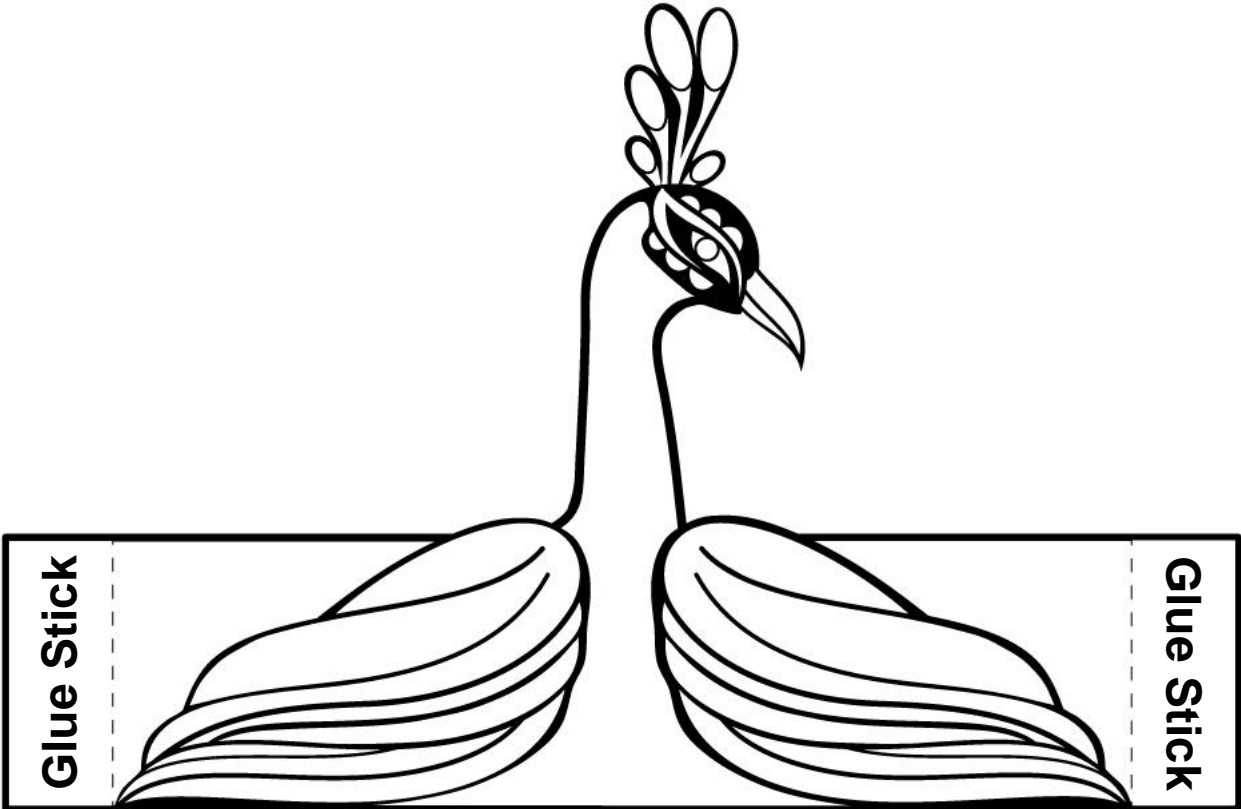

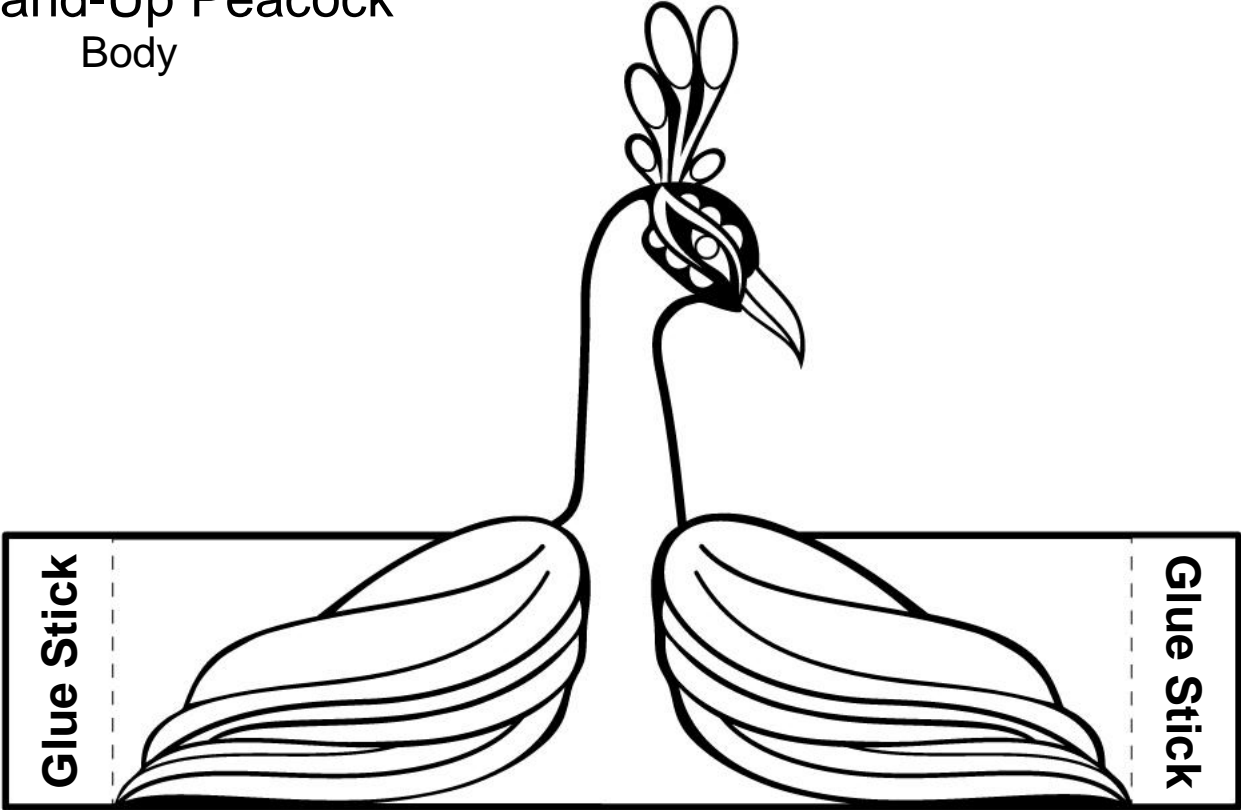

### Idea:

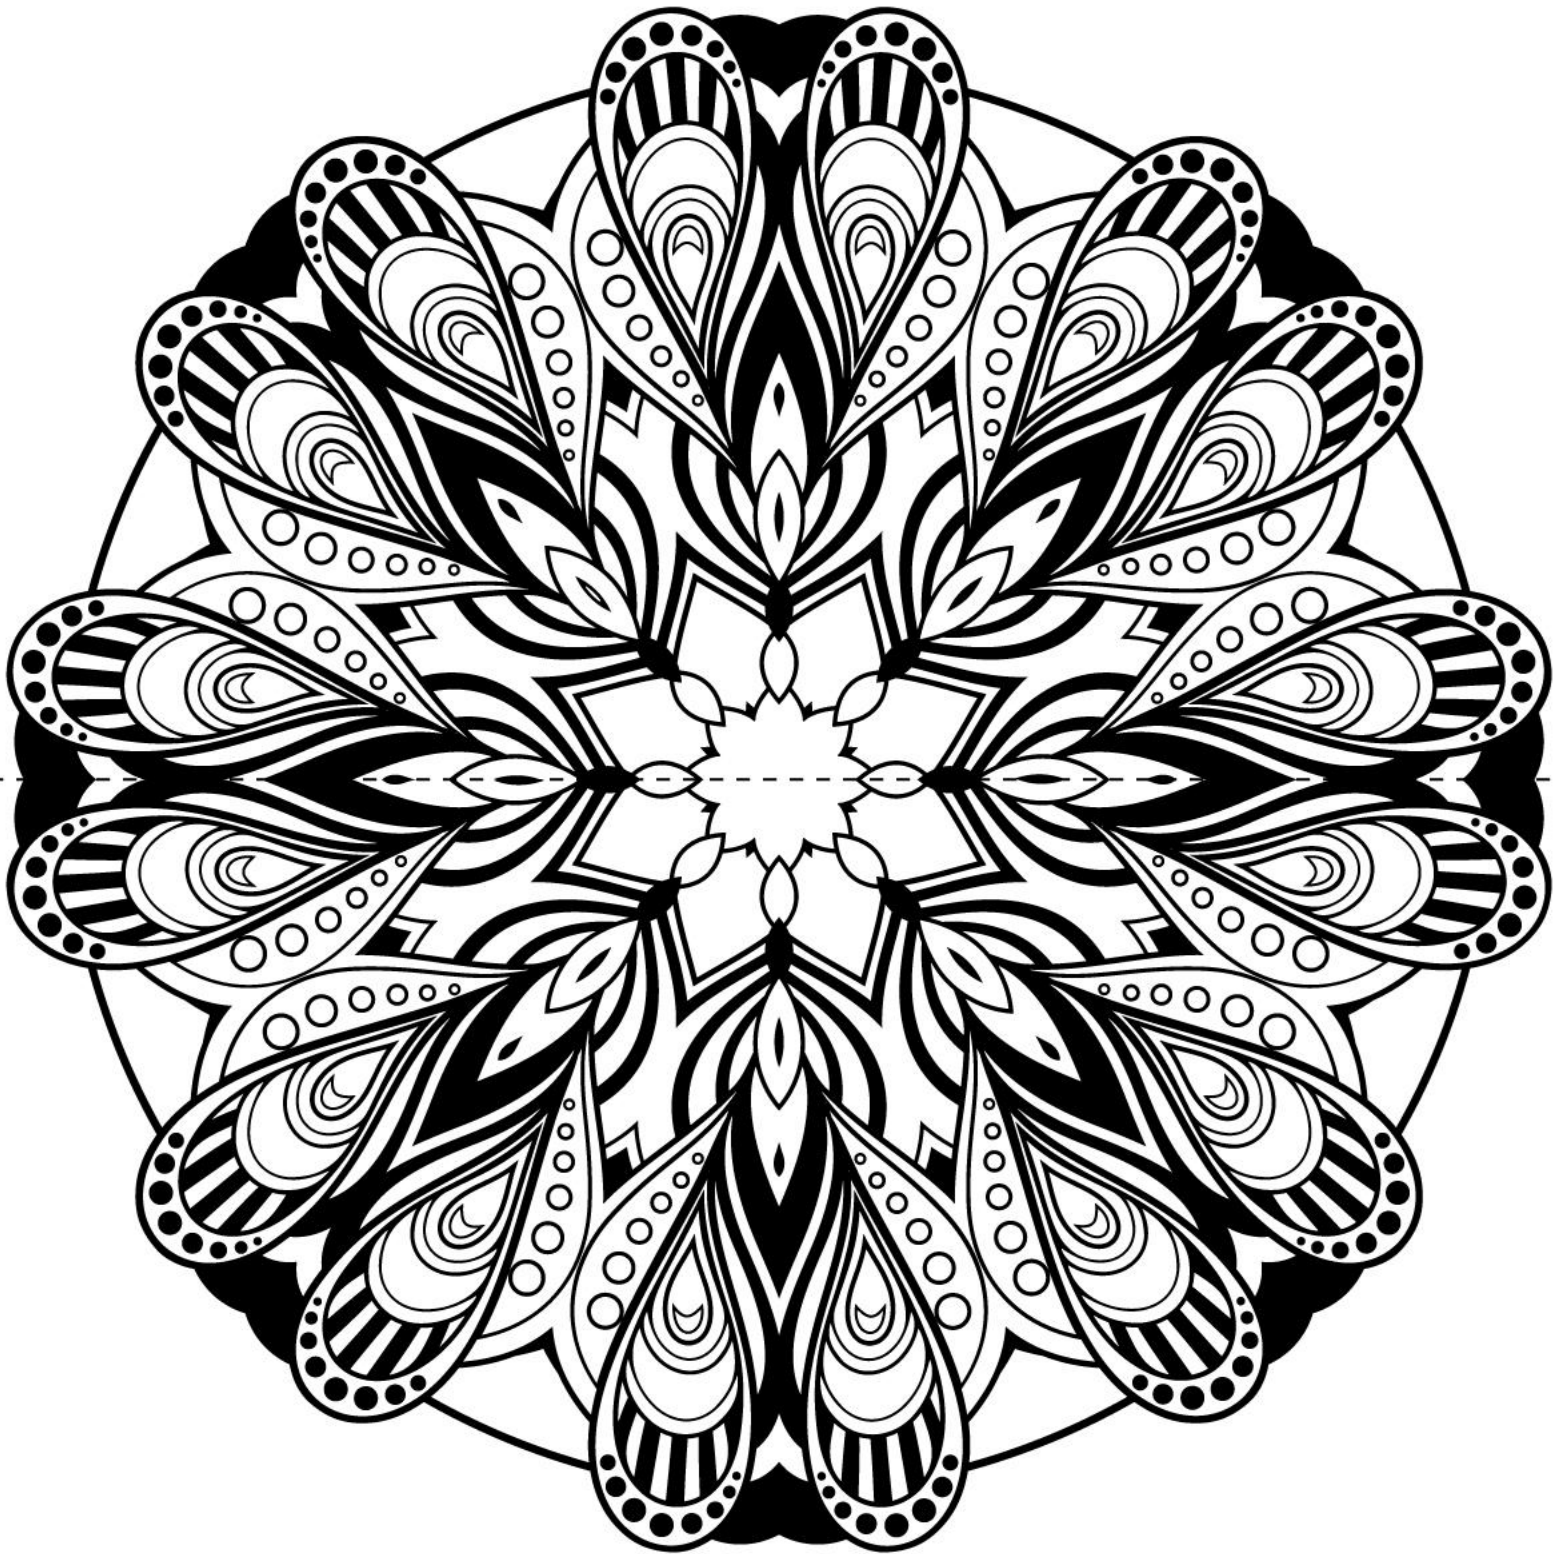

Cut a 9-ounce paper cup in half and place the bottom half inside the body. Fill with small candies or nuts and use them for party favors or decorations.
