

Math Count Up 1 to 4

- 1) Fill in all of the squares with a number from 1 to 4.
- 2) Do not repeat a number in any row or in any column.
- 3) The numbers in each heavily outlined set of squares must combine (in any order) to produce the target number in the top corner using the mathematical operation indicated (+ for addition, - for subtraction, ÷ for division, and X for multiplication).

Example: If the number in the top corner of a heavily outlined set of squares is 2(-), then the numbers must equal 2 when subtraction is used.

|------|------|---|-------|
| 1(-) | 2(÷) | ⋮ | 12(x) |
| ⋮ | 1 | ⋮ | ⋮ |
| 3(-) | 5(+) | ⋮ | 2(÷) |
| ⋮ | 2(-) | ⋮ | ⋮ |

- 4) Heavily outlined single squares are already filled in.
